Richmond Builders To Start Gift Home For Blind Man And His Family Of Three Today

THIS IS THE HOUSE WHICH THE RICHMOND BUILDERS ARE BUILDING FOR A FAMILY OF FOUR IN THE STEGE DISTRICT

There is a father in Richmond whose step is lighter this morning and a mother who sings as she goes about her work while two children can gleefully romp and play with their playmates again.

And all because Richmond Builders have a heart.

If you should wander out in the vicinity of the Stege schoolhouse this morning at about nine o'clock you would see the reason why this family has been made happy and why we can say without fear of successful contradiction that Richmond Builders "have a heart."

For there you will see the starting of a home for the family that has suffered a great deal of misfortune during the last few years.

We are not going to tell you the name, but a great many of you probably know it already for many have known of the plan since it was first originated several weeks ago.

The father a laborer in one of the Richmond plants lost his sight, his hearing and partial use of his arms and shoulder about three years ago in an accident. Then as though misfortune had not struck the family hard enough the nine year old son was struck in the eye with a stick losing the sight in one eye and effecting the sight of the other.

The mother went cheerfully on trying to keep the little family together. She was practically alone for she could not expect much help from the six year old daughter.

Workers who take care of cases of this kind did their best to help. The father had lost not only his eyes but his second sight—the feeling in his hands. For a time the case seemed hopeless. It appeared as though the family would have to be broken up and the father and son put into institutions for cases of their kind while the mother and daughter would have to be sent to another.

THEN THE RICHMOND BUILDERS CAME TO THE RESCUE.

The matter was brought to the attention of the Builders Exchange some time ago and almost before the speaker had finished outlining the case the house had been built. That is the various builders had guaranteed to do portions of the work so that now the small home stands completed from foundation to the last brick on the chimney in promises that will be fulfilled during the next few days.

The family will be rehabilitated. The father in his own home will be able to find something to do that will aid in taking care of his family and the little nine year old boy will be sent to a school where he can learn to see with his hands in case he loses the sight completely in his other eye.

The father has already secured his first papers as an American citizen and the mother has been registered in the Americanization class of Mrs. E. H. Axtell.

Upon the lot which has been provided for the home, arrangements will be made to raise chickens and in other ways help the family along.

When the matter was presented to the Builders, offers for aid came in so fast that President E. H. Higgins appointed a committee consisting of Frank Mero, James Walker and Grant Miner to take care of the offers and the construction.

And this morning this committee assisted by L. C. Dexter, secretary of the Builders Exchange will supervise the breaking of the ground, the excavation and the placing of the forms for the foundation.

As soon as the foundation is com-

pleted the following individuals and companies will rush the completion of the home providing the labor and material without cost:

Richmond Navigation and Improvement Co.
C. J. Lambrecht.
James Walker.
Frank Mero.
Harley Carter.
Stegel Lumber Company.
Tilden Lumber Company.
San Pablo Lumber Company.
Mirad and Peterson.

Richmond Electric Company.
V. G. Blake.
Pioneer Electric.
Pacific Electric.
Al Burdick.
Square Deal Hardware.
Richmond Hardware Co.
Armstrong Hardware Company.
Plans and specifications for the home were prepared by C. G. Smith of the Miner company.

SENSATION IS PROMISED IN "AIMEE" CASE

LOS ANGELES, July 10.—Testimony of a highly sensational nature will probably enter the Aimee McPherson kidnapping case when the county grand jury resumes its hearing on Tuesday. This was indicated from several quarters today.

A lengthy report from President Ernesto Boubion of Agua Prieta, Mexico, stating that he and chief of police Villa were ready to come here to testify before the grand jury, was said to be in the hands of District Attorney Asa Keyes. The testimony of the two Mexican police officials, it is understood, will oppose Mrs. McPherson's story that she was held captive in that part of Mexico.

"Mrs. McPherson was never held prisoner in this part of the country as she claims," President Boubion's report is said to declare.

The report is said to further state: "There is nothing to sustain Mrs. McPherson's story, and our investigators have searched every bit of country and traced every clue."

President Boubion's statements have been declared "ridiculous" by Mrs. McPherson, and not in line with the investigation of other officials who followed her tracks in and around Agua Prieta.

The Agua Prieta officials are expected in Los Angeles early in the week. Other witnesses from the Douglas section will include Miss Meriba Shinn, nurse, who attended Mrs. McPherson at a Douglas hospital, and Sergeant Murchison of the Douglas police.

Charles Reimer, special investigator, who accompanied Deputy District Attorney Joe Ryan to San Francisco two days ago on a secret search for Kenneth G. Ormiston, former radio expert at Angelus Temple, returned today and reported that no trace of Ormiston had been found.

Another objective of the investigators' trip to San Francisco was the possible identification of the writers of the first \$500,000 ransom letter in the case.

The Los Angeles officers were said to have in their possession information that may lead to the identity of the letter writers. The first ransom letter, signed "The Avengers" was received at Angelus Temple shortly after Mrs. McPherson disappeared at Ocean Park, May 18. It directed Mrs. Minnie Kennedy, the evangelist's mother, to station a man, with the ransom money, in the lobby of a San Francisco hotel. He was to wear a temple lapel button for identification purposes.

Detectives were stationed in the San Francisco hotel, but no one appeared. Since that time the San Francisco police have been working on various clues.

Mrs. McPherson was called upon to inspect additional police identification bureau pictures today. Since her return here the evangelist has looked over several thousand police pictures but has been unable to identify any of them as bearing any resemblance of her abductors.

SCORES KILLED WHEN 40 MAGAZINES BLOW UP FIND OAKLAND MERCHANT

LAVENSON IS FOUND, WRISTS ARE SLASHED

Lost Man Found by Posse Is
Removed to Hospital in
Weakened Condition

(By Universal Service)
CHICAGO, July 10.—Albert S. Lavenson, wealthy Oakland department store executive, who was the object of a search since Tuesday, when he disappeared from Richardson Springs, by hundreds of searchers and who was found today in a critical condition lies tonight in a semi-conscious condition at the Engle hospital.

The millionaire merchant and philanthropist was brought to the hospital from the ravine by stretcher bearers. According to Dr. Newton Entes, Lavenson is suffering from exhaustion and the loss of blood from slashed wrists.

Still in a delirious condition Lavenson managed to tell hospital attendants that he had slashed his own wrists today after he frantically sought to attract the attention of an airplane that flew overhead and which was in search of him and failed.

Vice President At Chicago Home

(By Universal Service)
CHICAGO, July 10.—Vice-President and Mrs. Charles G. Dawes arrived in Chicago today. They will spend the summer at their Evanston home.

The vice-president, who came here from Boston, declares he was glad Congress had adjourned and that he would get some much needed rest.

"Farm Relief?" he answered to a question put to him by a reporter. Those were his only words on that question. He raised his hand and shook his head.

"Senate Rules?" that's better. "I'll make a couple speeches in the west this summer on that."

He is to make an address at Denver on August 1, in celebration of the fiftieth anniversary of the State's admittance to the union. His first public speaking engagement will be at the Police Chief's convention which will be held here July 22.

**Lightning Kills Boy
In New York Storms**
ALBANY, N. Y., July 10.—Severe electrical and wind storms swept the northern and eastern sections of New York state last night and early today.

The weather bureau predicted further storms tonight and said they would break the oppressive heat wave which has caused so much suffering.

In Gloversville an electric bolt struck a trolley car, severely shocking several of the passengers.

Arthur Kunes, fifteen year old lad, was struck by lightning at Holcomb and instantly killed. His two brothers, standing near by, were not injured.

The farmers in several northern counties, reported today that their crops had been destroyed by the terrific hurricanes and rains.

Officers Of Steamer Rome Which Rammed S-51 May Be Held To Answer For Crash

(By Universal Service)
NEW YORK, July 10.—The captain of the steamer City of Rome, and the officer who had charge of her bridge at the moment of colliding with the U. S. naval submarine S-51 last September, may possibly have to answer further for their actions during that fateful night.

Admiral Plunkett, commanding officer of the Brooklyn navy yard, basing his statements on data supplied by the few survivors of the wrecked undersea boat, and on the condition of the S-51 as she stands today in drydock No. 4 of the navy yard, said that no effort was made by the city of Rome to turn on a searchlight after the collision. The steamer did not stand by, the admiral said, thereby violating one of the most rigid rules of

the sea, and she did not immediately send out a radio report of the accident so that help could be rushed to the scene.

The S-51 did everything in its power to escape the collision," admiral Plunkett said, "and the City of Rome did everything in its power to escape responsibility."

Further search for bodies in the wrecked and rusted hull of the ill-fated little ship is to be discontinued. Officials of the navy yard are certain that no more of her heroic crew can be found.

A court of inquiry met in the navy yard today to fix the responsibility for the grounding of the S-51 on Man O' War Rocks, in the East river, while she was en route to the yard from that

Crippled French Veterans March In Protest Against Settlement Of U. S. Debt

(By Universal Service)
PARIS, July 10.—Despite Premier Briand's disapproval more than 20,000 crippled and scarred veterans of the World War tomorrow morning early will march down the Champs Elysees as a silent demonstration against the proposed settlement of the French debt to the United States.

The government will not interfere with the French Veterans' protest. M. Jean Durand, minister of the interior, told the cabinet at today's meeting. He naively explained:

"These former soldiers have assured the government that their parade will be a patriotic one with no political significance whatsoever. They will manifest their friendship for the United States by placing a wreath on Washington's statue in the Place Diana after they have put a wreath on the tomb of the Un-

known Soldier."

Despite these assurances given the government, the city is placarded with notices issued by the French war veterans, calling upon the French citizenry to join them "in a great demonstration against the proposed debt settlement."

The cabinet agreed with M. Durand that there should be no interference with the demonstration.

The Association of American Volunteers who served in the French army declined an invitation to participate, saying they respect the French government's orders issued by the premier, disapproving the march.

In answering this note the French War veterans suggested that the Americans might keep to themselves any advice they had to give about obeying governmental orders.

Cunningham Subpoenaed In Probe Of Million Dollar Pennsylvania Slush Fund

(By Universal Service)
WASHINGTON, July 10.—Senate attaches were dispatched post haste to Atlantic city today, armed with a subpoena for Thomas F. Cunningham of Philadelphia, "Missing witness" in the \$3,000,000 Pennsylvania primary probe.

Cunningham will be summoned to appear in Chicago when the committee reconvenes there on July 26.—Determined to "close the books" on the keystone state investigation, the committee will hear Cunningham's testimony first before attempting to pluge into the maze of testimony of the Illinois primary.

The committee will grill Cunningham at length in connection with his reported 50,000 dollars cash contribution to the Vare-Beldeman campaign, and the part he played in writing the senatorial nomination for Vare.

Information that Cunningham, who has been sought for three weeks, would be at Atlantic city today was conveyed to the committee yesterday by Rep. Benjamin

Golder, of Philadelphia.

Because of the fact that Golder is a close political ally of both Vare and Cunningham, it was believed certain here tonight that his information concerning Cunningham's whereabouts was reliable and that Cunningham will now appear when wanted.

While most of the committee members are enjoying a brief rest at home, committee employees are busily at work here laying the groundwork for the searching probe into the Illinois primary.

It was admitted that "leads" and "tips" were constantly pouring into the officers of committee members here, investigation of which may extend the Illinois inquiry from three weeks to a month.

Senator La Follette, of Wisconsin, today joined the ranks of absentees by departing for Milwaukee, where he will wage a campaign against the re-nomination of Senator Lenroot, his colleague.

Senator McNary, of Oregon is the only committee member still in the city.

A. Williams Is Killed In Fatal Crash

Father of Two Children is Killed
When Motorcycle Crashes
Into Automobile

Arthur Williams, 24, 2380 Lowell avenue, father of two children was instantly killed last night when a motorcycle which he was riding crashed into an automobile driven by Miss Margaret Cooper, Richmond Hotel at Moser Lane and San Pablo avenue. Edward Ward of the Hotel Richmond was also riding in the automobile at the time of the accident. Both occupants of the machine escaped injury.

According to the report made to the authorities Williams was riding north on San Pablo avenue and the automobile driven by Miss Cooper was going north. Miss Cooper turned off of San Pablo at Moser Lane when the motorcycle hit the car broadside. Williams was badly mangled and instantly killed by the impact. Williams was employed at the Earl Corey garage in El Cerrito.

Bert Curry, deputy county coroner took charge of the body.

Train From N. Y. To London Soon Says R. R. Man

(By Universal Service)
LONDON, July 10.—Within the next ten years travelers may journey from New York to London via express train. Frederick K. Carpenter, railroad organizer of Chicago, announced today.

Carpenter believes railroads will be run through Alaska, the trains to be ferried across Behring Strait, and then connected with the trans-Siberian railroad. A train ferry from the continent to Dover would complete the route.

He said: "Such a trip could be made within three weeks time. The scenic attractions would be great, and there would be no sea-sickness."

German University Honors N. Y. Banker

(By Universal Service)
BERLIN, July 10.—Because of his services in the fields of banking and general economics, Paul Moritz Warburg, of New York, a prominent banker and the brother of Felix Warburg, the philanthropist, was today named an honorary doctor of political science by the University of Heidelberg.

Warburg was formerly a member of the banking firm of Kuhn, Loeb and company when they had offices in New York City. But when he was appointed by the former President Wilson as a member of the Federal Reserve board, on which Warburg served for a period of four years, he resigned all his other directorships and trusteeships. This was in 1914. He now holds the office of vice president of the federal advisory council of the Federal Reserve board, and other high positions in many large financial institutions.

Mrs. H. A. Stiver, of San Jose, was a visitor in Richmond yesterday. Mrs. Stiver who formerly resided here was a member of the school board. Her two daughters, the Misses Elizabeth and Frances Stiver, are traveling in the east where they will remain for another month.

LIGHTNINGSETS OFF BIG STORES OF EXPLOSIVES

Searchers of Ruins in Danger
As Shells Set Off by Fire
Shriek Overhead

DOVER, N. J. July 10.—A lightning bolt starting a series of explosions wiped out forty magazines of T. N. T. Shells and high explosives in the naval munition depot on Lake Denmark had spread to the army depot at Picatinny late tonight and had taken a toll of life variously estimated at from 25 to more than fifty.

The area was a veritable battleground at 11 o'clock. Staggering explosions punctuated periods of comparative silence while shell fragments screamed overhead and drove rescue squads backward a half mile or more.

Out of this desolate district a few survivors had staggered bringing with them conflicting stories of the loss of life.

That 85 marines and 50 sailors were on the naval reservation, that of these only 8 who were on leave survived and that the families of the officers and men also perished was the belief of Private E. C. Morris who lived because he was "at liberty" this afternoon.

That "three quarters of the personnel is missing" was the official version that went forward to Washington.

Conflicting with these two versions was the statement of Corporal (Continued on Page 8)

Carquinez Bridge Opening Plans Are Being Prepared

CROCKETT, July 10.—Preliminary plans for a big celebration to the opening to traffic of the Carquinez bridge and the breaking of the water barrier between northern and central California counties were made at a meeting of the Crockett-Valona Business Men's Association here this week.

The celebration, which is planned to last three days will take place on May 20, 21, 22, 1927 by which time the bridge, which will be opened for traffic on April 1, will be completed.

All Chambers of Commerce of Contra Costa, Alameda, Solano and Lake counties will participate in the occasion which will assume gigantic proportions.

Erection of the steel work on the bridge is being done rapidly by the United States Steel Products company. Girders towering 1000 feet in the air have been erected at the south side of approach of the bridge. Erection of the giant steel towers towering higher than the San Francisco Standard Oil building will start about August 1. The state highway commission has completed its surveys for the widening of the highway from Torrey to the approach of the bridge.

Sir John Ross Dies At Home in Ireland

(By Universal Service)
BELFAST, July 10.—The death of Sir John Ross of Bladenburg occurred today at Rostrevor. Sir John was one of the direct descendants of General Ross, a British officer who was killed, while attacking the city of Baltimore, by a rifle ball fired by one of General Washington's soldiers during the Revolutionary war.

FARM RELIEF TO BE LIVE ISSUE IN CAMPAIGN

(By Universal Service)
WASHINGTON, July 10.—Congress left farm relief legislation "down, but not out"—of politics. On the contrary, the defeat of the Haugen bill instead of killing it makes it a live issue in the congressional campaign, particularly in the west and middle west.

With tempers still ablaze over the rejection of the Haugen bill, farm bloc leaders already have begun to set prairie fires under all opponents of the measure, in an effort to snuff out their political lives.

No matter what success the bloc meets in this campaign, president Coolidge is sure to find the farm relief founding on the White House door-step when he returns to Washington. The next session of congress, however, will be too brief to dispose of the issue.

If the bloc does succeed in electing a majority for the Haugen bill to the Seventieth Congress, the administration must find some substitute for it that is economically sound and at the same time acceptable to the farmers.

Otherwise, President Coolidge appears likely to be placed in the embarrassing position of being forced to veto a measure that has been popularized for the last three years throughout the agricultural areas, as a result of the propaganda of the great farm organizations.

Some of the Republican farm bloc leaders are so aroused over the defeat of the Haugen bill that they are prepared to support Democrats rather than Republican candidates opposed to the measure.

They will concentrate their efforts in five states in which Republican senators are up for reelection and in all congressional districts in the middle west.

The senators marked for defeat because of their votes against the Haugen bill are Willis of Ohio, Ernst of Kentucky, Shortridge of California and Lenroot of Wisconsin. Smoot of Utah is also listed because he "ducked" the vote and was not paired either for or against the bill.

Willis admittedly is firmly entrenched. The farm organizations of Ohio are split on the proposal. The opposition to Willis in the primaries is divided and weak. The Democrats also are divided between former Senator Atlee Pomerene and Judge Florence Allen, running for the senatorial nomination. Even with these conditions in his favor, bloc leaders say that Willis will know that he has been through a scrap when he emerges from the campaign.

Lenroot is in the shakiest position of the group. He is opposed by Gov. J. Blaine, who has the full La Follette strength behind him. Lenroot also is handicapped by his leadership for the World Court, which Blaine is making a leading issue in the campaign. The bloc feels sure of adding another member in Blaine, since the Democratic party in Wisconsin is virtually non-existent.

While the Republican bloc leaders have no hope of picking up another Republican in place of Ernst of Kentucky, who has the nomination clinched, they would shed no tears over his defeat by Representative Barkley who appears to have the edge in the contest for the Democratic nomination.

Senator Shortridge apparently is somewhat better off because of the divided opposition to him. With only Judge Robert M. Clarke of Los Angeles, supported by Senator Hiram Johnson, against him, Shortridge would have difficulty in getting the nomination. But the Anti-Saloon league has put Representative Walter Lineberger into the race as a dry candidate, which will tend to aid Shortridge.

Smoot's friends admit that the veteran old guard leader is in the fight of his life this year and have sent out appeals for aid.

BATHTUB GIRL IS FINED ON MOTOR CHARGE

(By Universal Service)
CHICAGO, July 10.—Miss Joyce Hawley paid a fifty dollar fine in traffic court here today for speeding past two traffic signal lights at 2 a. m. this morning. A disorderly conduct charge was dismissed.

Miss Hawley, in case you have forgotten, is none other than the young Chicago maiden who became famous through a bath in a tub of wine at an Earl Carroll party.

"I forgot I was in your old Chicago," she pointed when the fine was assessed. "I thought I was in New York where they don't have lights all over."

"What's the matter, are you color blind?" the judge asked her.

"No I didn't see the lights until it was too late and then the brakes were bad anyway," she replied.

"Well bad brakes is an offense in itself. Let's see, you passed two traffic lights, which ought to be worth about \$25 a light and then add \$6 for the officer's time and worry. Making a grand total of \$65. Please pay at the window to your right."

"But Judge—"

"My dear miss, I hope you have the money or can get it, for I would not like to send you to the Bridewell, where I assure you there is no wine for bathing purposes, or any other purposes."

She paid.

The car she was driving belonged to Frank Huff, owner of a road house near here, where Joyce is scheduled to appear during the coming week. Miss Daugelas, for that is Miss Hawley's real name, explained the affair this way:

"I was supposed to meet several millionaire friends at the Blackstone last night, but it got pretty late, so Mr. Huff said he would loan me his car. He had given me a party at the Tavern and I just had to get back to the hotel. I guess I did get sassy with the coppers, but I forgot I was in Chicago and thought I was in New York."

Hunsberger Final Rites on Monday

The McKinley Lodge of Masons will conduct the funeral services for Levi D. Hunsberger who will be buried in the Wilson and Kratzer funeral chapel Monday afternoon at 2 o'clock. Interment will be in Sunset View cemetery.

Fall beaters will be John Huston, E. J. Garrard, W. Barry, Raymond Walker, H. T. Melroy and James Rioli. Rev. F. A. Woten, pastor of the First Christian church will officiate.

Hunsberger who is believed to have died from heart trouble was found dead in bed at his home, 157 Sixth street. He was 67 years of age and had been a resident of Richmond for thirteen years. He was employed by the Standard Oil company. Besides his wife, he is survived by two daughters.

G. Traverso, of the Traverso Grover, and A. Pollina, of the Richmond Monumental company, will leave tomorrow on a two-week vacation to Lake county.

OPERATIC FIVE HEADS BILL AT THE CALIFORNIA

The outstanding features of the five act vaudeville bill coming to the California Theatre today will be the Operatic Five, in songs you like; and the Gabberts, "America's Ingenious Athletes," with "Hogan's Alley," featuring Monte Blue, as the screen feature to round out one of the best bills offered this year.

Headed by Georges Simondette the well known French Tenor the Operatic Five offer a "Musical Revue" consisting of a song festival that runs from the popular ballads to Operatic Arias. It is seldom that such vocal talent is heard on the vaudeville stage so lovers of real vocalism are advised to hear this great quintette and their splendid repertoire on Sunday.

The Gabberts a duo of young athletes specialize in up-to-date stunts that are original in their conception. Their manner of presentation savors of the European touch and their work is offered with a celerity that is commendable.

"The Affable Pair" Van and Morris are a likeable couple who indulge in merry persiflage some specially written songs and some comedy bits that are sure laugh winners.

With a xylophone, Dave Monahan is sure to be a big favorite for he is master of the instrument and is one of the few musicians who can jazz and play worth while selections on it.

The Ackermans in "Vaudeville Eccentricities" complete the show. "Hogan's Alley," Monte Blue's new starring production for Warner Bros., will be today's screen feature, with Monte in the role of a young Irish pugilist, who sacrifices his chance for first honors for the sake of the girl he loves.

Darryl Francis Zanuck adapted this Gregory Rogers story of romance, prize-fights, old New York and the Bowery, an aeroplane chase and thrilling rescue, through which beat the heart throbs of the simple folks of the alley. Reviewers in other cities assert that Roy Del Ruth, in his direction of the photoplay, has intensified the humor, pathos and drama of this story of life on the East Side.

In addition to Monte Blue, the cast of "Hogan's Alley," includes Patsy Ruth Miller, Willard Louis, Louise Fazenda, Max Davidson, Nigel Barrie, Mary Carr, Frank Bond, Frank Hagney and Ben Turpin.

For the sequences showing the Athletic club and the prize-fights, Warner Bros. have secured the services of old time champions of the world, among them James J. Jeffries, Tommy Ryan, Ad Wolgast, and Ted "Kid" Lewis.

Other features include "Hold Her Sheriff," a comedy scream; "Kinograms" world news events; Carl Richard's California Orchestra; and Larry Canelo, at the organ.

Bridge Company Pays \$50,000 for Ferry Franchise

The Sherman Island ferry operated many years east of Antioch by Chris and Harry Lauritzen has been purchased by the American Toll Bridge company at a cost of \$50,000 for the franchise alone. All of the equipment of the line, which parallels the Antioch bridge, remains the property of the brothers.

The Lauritzen will operate a toll ferry from Sherman Island to Jersey Island. At the same time the Contra Costa board of supervisors have proposed the use of the Lauritzen's ferry to replace the small boats connecting the many islands on the river.

Mary Adeline Mack Final Rites Held

Rev. Frank A. Woten officiated at the funeral services held yesterday afternoon at two o'clock in the Wilson and Kratzer funeral chapel for Mrs. Mary Adeline Mack, who passed away at the home of her daughter Mrs. Hugh Clark, 135 Eighth street. Interment followed at Sunset View cemetery.

Mrs. Mack, who was a native of Wisconsin had been a resident of California during the past twenty years, residing in Richmond eighteen months.

She was the mother of Mrs. Clark, Mrs. Walter Stevenson, of Oakland; Mrs. E. P. Brown, J. L. Mack, of Idaho; John E. Mack, of Monahan; Paul W. Mack, of Oakland; Arthur Mack of Fresno, and Albert Mack of San Jose. She was a member of the First Christian church and of the Rebekah Lodge of Gozelle, California.

W. E. Pace and family have returned from their vacation spent in the northern part of the state.

Souls for Sables Is Attraction At Richmond Theatre

"Souls for Sables" a Tiffany production tells of a phase of modern life that is always interesting—a woman's longing for beautiful clothes. This picture, which comes to the Richmond Theatre today, is suggested from "Garden of Eden" by David Graham Phillips, and has the featured players Claire Windsor and Eugene O'Brien.

It is the story of a beautiful girl, reared in the lap of luxury, who marries a business man who is unable to keep up with the demands of his extravagant wife. She wants a sable coat. She wins money in a card game and invests in the stock market through the medium of a rich broker who admires the young mistress.

Unaware of how his wife gets the coat, the young husband shows his disapproval by leaving her. The story has a dramatic finish, which would be unfair to publish. Miss Windsor as Alice Garland is more beautiful than ever and gains high honors in her portrayal of the part of the spoiled child of fortune, while Eugene O'Brien as the young business man is more than good in his part. The other members of the cast, including Edgan Percy, Anders Randolph, Claire Adams, George Lawless and Edith Yorks, are well cast in their respective parts.

Other features include "Bear Cats," a juvenile comedy; and "Kinograms" world news events.

Ambitious Office Seekers Violate City Ordinance

With the political pot bubbling to the boiling over stage, Chief of Police Dan Cox is calling the attention of ambitious candidates to the fact that there are certain places in the city of Richmond that are immune against the painting, pasting and nailing of cards and posters.

In calling attention to the violation of the law covering the same Chief Cox has the following to say:

Office of the Chief of Police
Police Department
Richmond, Cal. July 10, 1926
Record-Herald
Richmond, California
Gentlemen:

We would appreciate it very much if you will make mention of ordinance mentioned below:

ORDINANCE No. 179 of the City of Richmond provides as follows:

SECTION 1.—It shall be unlawful for any person, firm or corporation to paste, paint, affix or fasten, or cause to be painted, pasted, affixed or fastened on any telegraph, telephone, electric light or street car pole, or on the sidewalk, or public building or structure within the City of Richmond any advertisement, bill, notice, card, or advertising device.

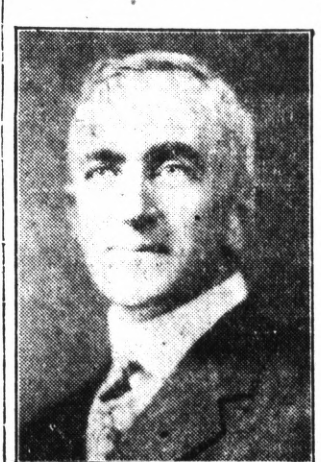

Section No. 2.—Provides that it is the duty of any person who has attached such to any of the above mentioned structures or objects to immediately remove the same.

Section No. 3.—Declares that any violation of the two above mentioned sections to be a misdemeanor and punishable by a fine not to exceed \$100.00 or 50 days in the City or County jail or both such fine and imprisonment.

The United States Government tells us that proven statistics show that of each 100 men passing the age of 25, 36 are dead before they reach 65 and that of the other 64—

- 1 will be wealthy
- 4 will have incomes
- 5 will have some earning power.
- 54 will be dependent upon some relative or upon charity.

Out of every 64 men reaching the age of 65, 54 are dependent! It is not reasonable to assume that any large percentage of them lived lives of reckless abandon or profligacy; there seems, rather, to be an intimation that disability or some other misfortune interfered with their well-laid plans.

Church and Sunday School

All items and notices which are to appear in this department must be turned in at the office of the RECORD-HERALD not later than Friday night.

GRACE LUTHERAN CHURCH

Red Men's hall, Eleventh street and Nevin avenue, S. T. Himes, Ph. D. pastor, residence 720 Nevin avenue; E. J. Evans, superintendent of the Sunday school.

Sunday school begins at 10:00. Subject of the lesson, "Childhood and Education of Moses." Golden text, "Train up the child in the way he should go; and when he is old he will not depart from it." Proverbs 22:6.

This text had its impression upon Moses as a child and as a man. His education was guarded both by his mother and his sister. He was trained further in Egyptian life and court by Pharaoh's daughter. And God was with him that he might become the great leader that he is. Noble character should be the end of education.

The Sunday school is a great help in obtaining the goal of education. At the 11 o'clock service the sermon will be preached by Rev. Geo. H. Tillmann, D. D., general superintendent of the western district of the United Lutheran Church Home Missions, Berkeley, California.

There will be special music by the church choir as follows: W. J. Osborne will sing a solo, "The Lord's Prayer." Dr. Hillmann will give us a stirring message which will encourage the heart of both friends and strangers. Come and find a welcome place.

"Let's Go Camping"
Prepared for the Auto Camper
by the Western Auto Supply Co.
No. 2—Selecting the Tent

Individual Needs Should Govern Camper's Purchase of Tent

When choosing the tent, the camper should carefully study his own individual needs and make his purchase accordingly. A tent that might be ideal for one camping party will not always do for another. Here are a few of the many points to be considered before making the tent purchase; the number of people on the trip, the length of the trip, weather conditions, "one night" stands or a permanent camp, and the accommodations offered by the car itself.

The tent should be large enough to comfortably house every member of the party. It should be light and compact for ease in transportation. It must provide real shelter against storms, wind and cold. It should be equipped to keep out mosquitoes, bugs, insects, etc. The ideal tent can be set up by one person in a few minutes.

There are many different types in tents but the two that have met with ready approval among the majority of auto campers are the palmetto or umbrella and the lean-to types.

The lean-to, or standard auto tent, is a very simple tent and very good for general auto camping purposes. It consists of a single sloping roof with a three foot back wall, side walls and an open front. The canopy at top of the tent extends over the car and fastens to the wheels or hubs on the opposite side of the car. When the standard auto tent is used the car can be made into a dressing room.

The palmetto and umbrella tent stand quite independent of the automobile. There are no guy ropes needed and only one center pole is used on the palmetto. There are screen windows, a pocket, a full door completed with a canopy. It is very easy to set up; simply stake down the corners and raise the center pole. This tent is equipped with a sewed in floor and a canvas skirt that keeps out crawling things.

A bobnet fly may be had to fasten over the door to keep mosquitoes out of the tent.

Statewide Search Started for Man On Check Charge

Charged with giving five Martinez Merchants bad checks totaling to a sum of \$100, Joseph Stutz, a former Shell Oil worker at Martinez is the object of a state wide search by the police. The merchants declare that Stutz gave them checks for varied amounts and that the paper of the checks were good, but when they went to the bank to cash the checks it was a different story, they declare. Stutz it is alleged had closed his account and when friends were asked he had departed for parts unknown.

come with the tents are more easily broken than the metal ones. The poles and stakes should be carried in a separate bag. This method saves wear on the tent and eliminates all danger of having the tent punctured by a sharp tent stake or pole tip.

Most of the modern tents come complete with jointed poles and wooden stakes. It is advisable to carry a number of extra metal stakes as the wood stakes that

trouble in setting up your tent if you take special note how it is folded when you first take it out of the bag. Try setting up the tent in the back yard or use it overnight to get used to handling it before you leave on your trip.

Pekin Defenders Are Attacked by The Allied Army

(By Universal Service)

LONDON, July 10.—The allied army attacked the Pekin defenders shortly after dawn, following a full of several weeks in the campaign, according to cable advices received here from the foreign quarter in Pekin.

Severe fighting was reported, the gunfire being heard plainly in Pekin. The attackers were repulsed with heavy casualties by noon-time, after which only guerrilla fighting was indulged in, late reports said.

No fear is felt for the safety of the residents of the foreign quarter, as there has been no evidence of anti-foreign hatred in the allied army.

Motor Car Has Made Summer Vacationist Independent; Good Roads Help The Cause

(By Universal Service)

By ROY C. HAYES

DETROIT, Mich., July 10.—With its toes on the accelerator, road maps in hand and a well stocked trunk, the motor car has made the vacationist independent, according to cable advices received here from the foreign quarter in Pekin.

New ribbons of concrete stretching into the nation's beauty spots—and they are legion—inspire the work-bound citizen with an irresistible urge to climb in and breeze away anywhere, for every nook in the nation beckons the tourist.

The automobile industry's great gift to the vacationist—is a badge of freedom and individuality, a key that reveals to the tourist remote enchanted places, famous hidden spots and the din and stir of great cities, as well. High, commanding mountains, flower-laden valleys, field and stream, how to the authority of the motor car.

The unparalleled flexibility of the automobile allows for a tailor made vacation. It has spelled the doom of alarm clocks, time tables and vexing whistles, happily substituting the go as you please style that makes for the perfect vacation.

Day and night, in good weather and bad it stands at attention, awaiting the owner's pleasure. It is the only instrument, which the vacationist finds indispensable, the one comfortable means of individual transportation.

Any doubt about its standing as a vacation necessity flickers out in picturing a vacation without an automobile impossible.

America's 21,000,000 motorists statement needs no proof. Highways and byways, paved roads and country lanes, rubber-tracked and car worn give evidence of the universal popularity of a motor car vacation.

Each succeeding year witnesses growth in the number of motor car vacationists. According to the A. A. A., 1926 will establish another new record in this regard. Motor tourists will spend five billion dollars this year, it is said.

Several thousand paved miles have been added to the country's highway system in the last year. Good roads are recognized on all sides as the hall marks of progress.

They disseminate happiness, health and money.

First, the scourge of touring in years past has been beaten and based by paved roads that are setting the country in checker board fashion. Witness the passing of touring coats and goggles.

Highways are better marked than ever, fuel and service facilities have been extended nearly 100 percent in the last two years, reliable touring information is available in the thousands of motor clubs that dot the country.

Trans-continental highways, advocated as long ago as 1906, are coming into being. A network of longitudinal interesting motor ways are a part of Uncle Sam's billion dollar highway scheme.

So many tables of "do's and don'ts" have been compiled for motorists that the average person is apt to disregard them. A few should be borne in mind are the following:

On tour expect your car every morning. Watch your gas, oil and tires. Don't take a chance on getting repair work done after leaving your base in the morning. Have your car thoroughly inspected before you leave home.

Don't give a lift to a stranger. Several thousand motorists fell victims to highway tramps last year.

Get your maps and complete touring information before you leave. Don't depend on curbstone touring advice.

Don't speed, it's the steady, consistent pace that gets you there in the shortest time.

Carry a tow rope for an emergency.

Vacation time—that welcome perennial that marks the beginning of a new fiscal and physical year for all of us—gives an added delight to automobile ownership.

Use your car and be independent.

Major is First of 10,000 To Return to U. S. Under New Alien Veteran Law

Under the recently enacted Alien Veteran Law, 10,000 World War veterans who fought under the American flag but who have been detained in foreign lands because of adverse immigration laws, will come into this country without restriction. Lucien J. Rode, formerly a major in the American army, will be the first to be admitted under the new law. He was born in France and came to America first at the age of two, where he lived until he went back to France with the 82nd Division. Rode was assigned to General Pershing's headquarters at Chaumont as photographic officer. He married shortly after the war.

Lightning Sets Off Big Stores Of Explosives

(Continued from Page 1) poral Marick Prather. In the Dover hospital with five other survivors he declared that he started running through the woods and got away; and his estimate is that seventy marines and three sailors were on the reservation and "of these not more than twenty-five were killed."

"I believe the others fled into the woods and will be found later," he said. The relief Gordon which surrounded the stricken area with the first aid field stations for which the roar of giant shells brought into being were not so sanguine. They had had no time for the listing of names and addresses but they knew only too well that their emergency cases had been civilians.

These straggled in from villages widely separated and their injuries came from the wrecking of their homes by the force of the explosion.

Out of the smoke blanket tonight walked Captain O. Dowling, commander of the station who had been reported killed. According to reports reaching here he received medical attention and rushed back to take charge of rescue work. His unexpected appearance leads to hope that the Indiana corporal might be right in his casualty estimate.

As the night wore on the many who fled toward safety filled the roads while the total of the injured who were treated for wounds trivial and serious had mounted far into the hundreds.

Out of the confusion of the eighty acre inferno which this afternoon was an orderly government reservation, few firmly established facts had come up shortly before midnight.

THIRTY ESCAPE But at that hour it appeared that at least thirty marines had escaped. That many said one survivor had reached the shores of the lake. Of these a dozen had raced through falling shell to safety while eight had crossed the lake in a row boat, ten could not be accounted for.

COMMANDER APPEARS

Captain Dowling commander of the post who "came to life" from out of the night sought medical attention and plunged back toward his reservation paused only long enough to give an incomprehensible picture. To him it had been an almost unendurable shock, the shock of such confusions as men never experienced even in the height of battle. He appeared dazed some said. At midnight the deadly pit continued to throw huge missiles for thousands of yards and the unanswered question was—what became of the wives and children of officers and men who were housed on the reservation? The possible loss of life among service men appears to have been whittled down somewhat but the story of the women and children remained untold and the general opinion was that any person caught within the reservation could not be found.

Officers Of Steamer Rome Which Rammed S-51 May Be Held To Answer For Crash

(Continued from Page 1)

the crew six bodies have been recovered but not identified. Six of them drowned at sea.

LAST BODY REMOVED

WASHINGTON, July 10.—Notified by Admiral Plunkett that all bodies had been removed from the bulk of the submarine S-51 the navy today began the grim task of arranging the funerals of the victims.

After all the stores of the wrecked submarine are removed, the hull will be made watertight, removed from dry dock and moored until final decision is announced as to whether the vessel can be reconditioned.

Don't was expressed by navy officials here that the S-51 will ever sail the seas again.

A revised list of the dead and disposition of the bodies was issued as follows:

Bodies identified: Ensign Edmund Webster Egbert, Annapolis, Md.; widow, Mrs. Tempa R. Egbert, body to be sent to Annapolis.

Growth of County is Shown by Addition Of 3,000 Tax Payers

The increase of 3,000 individual property assessments over last year's number indicates the rapid growth of the county of Contra Costa, according to Tax Collector Martin Joost, who began preparation of the year's tax bill yesterday.

Joost stated that there will be more than 55,000 tax bills mailed this year to property owners, of which approximately 48,000 are for real property. The increase in real assessments is attributed to the breaking up of the large land holdings in eastern Contra Costa county.

Breaks Wrist While Starting Airplane

R. D. Noble, 2503 Lowell avenue, sustained a broken right hand, while cranking his airplane last Wednesday. The propeller kicked breaking his hand. The accident occurred at the Alameda flying field and he received emergency treatment at the Alameda emergency hospital. Dr. H. L. Carpenter is the attending physician.

Our New Addition

MIRA VISTA HIGHLANDS, the most scenic and the last of the Mira Vista properties, is now being subdivided into large homesites, each with a frontage of from fifty to sixty feet.

Consisting of one hundred acres of gentle sloping hillside, overlooking San Francisco Bay and the Golden Gate.

Bordering on the grounds of the picturesque Berkeley Country Club and extending westerly to the present intensive building operations.

The highest type of improvements are being installed, oil macadam roadways, cement sidewalks, concrete curbs and gutters, a complete sewer system, with water, gas and electricity extended to every lot.

Building restrictions have been placed upon the property that will guarantee to the home owner protection that will insure surrounding values, and develop an environment that follows a high-class residential subdivision.

The prices at which this property is to be sold are within the reach of everybody desirous of selecting a homesite for his family, that has, combined with a beautiful location, ideal climatic conditions, accessibility to all parts of the East Bay district and, with the direct ferry between Richmond and San Francisco, the possibility of commuting to that City.

Don't overlook the future value of this property. It has a bearing on your selection of a homesite.
